Model 264
Very Low Differential Pressure Transducer
Unidirectional Ranges: 0 - 0.1 to 0 - 100 in. W.C.
Bidirectional Ranges: 0 - ±0.5 to 0 - ±50 in. W.C.
Air or Non-Conducting Gas

Setra Systems 264 pressure transducers sense differential or gauge (static) pressure and convert this pressure difference to a proportional electrical output for either unidirectional or bidirectional pressure ranges. The 264 Series is offered with a high level analog 0 to 5 VDC or 4 to 20 mA output.

Used in Building Energy Management Systems, these transducers are capable of measuring pressures and flows with the accuracy necessary for proper building pressurization and air flow control.

The 264 Series transducers are available for air pressure ranges as low as 0.1 in. W.C. full scale to 100 in. W.C. full scale. Static standard accuracy is ±1.0% full scale in normal ambient temperature environments, but higher accuracies are available. The units are temperature compensated to 0.033% FS/oF thermal error over the temperature range of 0°F to +150°F.

The Model 264 utilizes an improved all stainless steel micro-tig welded sensor. The tensioned stainless steel diaphragm and insulated stainless steel electrode, positioned close to the diaphragm, form a variable capacitor. Positive pressure moves the diaphragm toward the electrode, increasing the capacitance. A decrease in pressure moves the diaphragm away from the electrode, decreasing the capacitance. The change in capacitance is detected and converted to a linear DC electrical signal by Setra's unique electronic circuit.

The tensioned sensor allows up to 10 PSI overpressure (in either direction) with no damage to the unit. In addition, the parts that make up the sensor have thermally matched coefficients, which promote improved temperature performance and excellent long term stability.

Applications
- Heating, Ventilating and Air Conditioning (HVAC)
- Energy Management Systems
- Variable Air Volume and Fan Control (VAV)
- Environmental Pollution Control
- Lab and Fume Hood Control
- Oven Pressurization and Furnace Draft Controls

Features
- Up to 10 PSI Overpressure on All Ranges
- Installation Time Minimized with Snap Track Mounting and Easy-To-Access Pressure Ports and Electrical Connections
- 0 to 5 VDC or 2-wire 4 to 20 mA Analog Outputs Are Compatible with Energy Management Systems
- Reverse Wiring Protection
- Internal Regulation Permits Use with Unregulated DC Power Supplies
- Meets CE Conformance Standards

When it comes to a product to rely on - choose the Model 264. When it comes to a company to trust - choose Setra.

NOTE: Setra quality standards are based on ANSI-Z540-1.
The calibration of this product is NIST traceable.
U.S. Patent nos. 4093915; 4358814; 4434203; 6019002; 6014800.
Other Patents Pending.
Through our literature, it is the customer's responsibility to determine the suitability of the product in the application.

### Performance Data

### Thermal Effects

- Compensated Range (°F/°C): 0 to +150 (-18 to +65)
- Zero/Span Shift (°F/°C): 0.033 (0.06)
- Maximum Line Pressure: 10 psi
- Overpressure: Up to 10 psi in Positive or Negative Direction.
- Long Term Stability: 0.5% FS 1/yr

### Position Effect

- Range (°F/G) To 0.5 in. WC: 0.60
- To 1.0 in. WC: 0.50
- To 2.5 in. WC: 0.22
- To 5 in. WC: 0.14

* RSS of Non-Linearity, Hysteresis, and Non-Repeatability.

** Units calibrated at nominal 70°F maximum thermal error computed from this datum.

### Environmental Data

- **Temperature**
  - Operating °F (°C): 0 to +175 (-18 to +79)
  - Storage °F (°C): -65 to +250 (-54 to +121)

* Operating temperature limits of the electronics only. Pressure media temperatures may be considerably higher.

### Physical Description

- **Case**: Fire-Resistant Glass Filled Polyester
- **Mounting**: Four screw holes on removable zinc plated steel base (designed for 2.75" snap track)
- **Electrical Connection**: Screw Terminal Strip
- **Pressure Fittings**: 3/16" OD barbed brass pressure fitting for 1/4" push-on tubing
- **Zero and Span Adjustments**: Accessible on top of case
- **Weight (approx.)**: 10 ounces

### Pressure Media

- Typically air or similar non-conducting gases.
- Specifications subject to change without notice.

### Outline Drawings

**Code T1 Electrical Termination Dimensions**
